

Equipment Cases for radios and accessories

Product code: BiTEA NC5000

The BiTEA NC5000 Equipment Cases are designed for ultimate equipment protection. Easier convenient storage and transportation of valuable radio and IT equipment and accessories. The sample case shown below is one of our standard products designed to hold TETRA radios, spare batteries, mains chargers, earpieces and belt loops. We have models for Sepura TETRA STP9000, Motorola DMR DP4600 and other TETRA and DMR equipment. We have a bespoke design service to cater for radio, IT and precious items as required. The cases come with a lifetime manufacturer's warranty, have wheels, pull up handles and hasps for securely locking the case.

We supply these cases to organisations that need to manage fleets of radio equipment and it complements our other popular Radio Fleet Management radio programming equipment.
